

ROHAN S BHAT

Bengaluru, Karnataka

+91-9482257280 | rohanbhat524@gmail.com | linkedin.com/in/rohan-s-bhat | github.com/R451748

Summary

Software Developer with full-stack experience in **Java**, **Spring Boot**, **React**, and **MySQL**, applying object-oriented design principles to build reusable, RESTful, and scalable applications. Hands-on experience extending into **AI/ML systems** Retrieval-Augmented Generation, NLP, and LLM integration through independently built production-style projects. M.Tech Computer Science candidate combining internship experience, applied AI project work, and a strong foundation in backend and frontend engineering.

Skills

- **Core Languages:** Java, Python, SQL, JavaScript, HTML5, CSS3
- **Backend & Frameworks:** Spring Boot, Hibernate, JDBC, REST APIs, Thymeleaf
- **Frontend:** React.js, Bootstrap, Responsive/UI Design
- **AI/ML:** Machine Learning, NLP, RAG, FAISS, LLM Integration (Groq), Streamlit
- **Concepts:** OOP & Design Patterns, MVC Architecture, RESTful API Design, Agile/Scrum, Role-Based Access Control
- **Tools:** Git, GitHub, Docker, Maven, Postman, Jira, MySQL

Internship Experience

Software Development Intern

Oct 2023 – Mar 2024

KodNest Technologies (Remote)

- Owned end-to-end development of the authentication and access-control module for a Java/Spring Boot music player application, designing role-based permissions to secure user data and application actions.
- Applied **MVC architecture** and **OOP design principles** to structure the backend, producing a modular, maintainable codebase that supported ongoing feature additions without major rework.
- Debugged and resolved functional issues identified during internal testing cycles, improving application stability ahead of feature releases.

Web Development Intern

Sep 2023 – Oct 2023

CodSoft (Remote)

- Built responsive web pages using HTML, CSS, JavaScript, and Bootstrap, ensuring consistent rendering and usability across desktop and mobile breakpoints.
- Diagnosed and fixed cross-device compatibility and responsiveness issues, directly improving usability across varying screen sizes.
- Refined UI elements based on structured testing and review feedback, tightening the gap between design intent and functional output within a one-month delivery cycle.

Projects

DocuMind AI — AI-Powered Document Assistant

Python, FastAPI, Streamlit, FAISS, Groq LLM

- Built a Retrieval-Augmented Generation (RAG) pipeline using FAISS vector search and Groq LLM to generate context-aware answers from uploaded PDF documents.
- Engineered semantic document retrieval by converting document chunks into vector embeddings, enabling efficient similarity search.
- Delivered a modular application using FastAPI and Streamlit for document upload, indexing, and AI-powered question answering.

Student-Sphere — Student Management System

Java, Spring Boot, React, MySQL

- Designed and implemented a full-stack student management system with **15+ RESTful API endpoints** supporting student, course, attendance, faculty, department, and marks management.
- Enforced role-based access control for **3 user roles** (Admin, Faculty, Student) using Spring Security to secure application features.
- Structured a normalized MySQL database with **8+relational tables**, ensuring referential integrity and minimizing data redundancy.

San-Eng Translator — Sanskrit-to-English Translator

Python, Machine Learning, Streamlit, Tesseract OCR

- Co-developed an AI-powered Sanskrit-to-English translation system in a **4-member team**, integrating Machine Learning with Tesseract OCR for text and image translation.
- Achieved **97% validation accuracy** through iterative data preprocessing and model optimization.
- Deployed an interactive Streamlit interface supporting both text and image inputs for multilingual translation.

Certifications

- **Microsoft Certified: Azure AI Fundamentals (AI-900)** - Microsoft
- **Oracle Agentic AI Certified Foundations Associate** - Oracle
- **Building with the Claude API** - Anthropic Education

Education

M.Tech in Computer Science and Engineering

Reva University, Bangalore

Nov 2025–Aug 2027(expected)

CGPA: 8.24 / 10

Bachelor of Engineering in Computer Science

Canara Engineering College, Mangalore

Aug 2019–Jun 2023

CGPA: 7.25 / 10
